

A Positive Culture Change some of the key outcomes - surprisingly

1 Dependability

Getting things done on time and **achieving or exceeding expectations** ... every time.

2 Structure and clarity

Clear goals and direction ... (linked to well defined roles and responsibilities).

3 Meaning

Work is more than the job one does; a deeper sense of personal significance is created with **every** individual member of the team.

4 Impact

Doing work that is seen and felt to be purposeful and positively impacts on turning the mission, vision and strategies into **stunning realities and results.**

5 Psychological safety

A sense of confidence that individuals / teams will not embarrass, reject or punish someone for coming up with new ideas or speaking up, thereby developing **high levels of trust**.

6 The “unstoppability” factor

A “bring it on” attitude and mind-set is embedded – “nothing is impossible” is the mantra.

Performance and **results soar**. Competition is left standing.

**If you've read this and can relate
to any of these outcomes being
missing in your organisation ...
then please get in touch ...
we'd love to help!**
